Released: **June 2020**

Software development, Web designer

Lead Programmer, Webpage redactor (IT Area)

March 2020 – May 2020

Topics: JavaScript,SEO – optimisation, Web graphic designer / **Design / GTD**

Project: **ZLO fireshow** - Web presentation for group of art fire performers

Target:

A Challenging task where I had to highly enhance classical options of free web hosting and add more that was not supported. Because of long term needs "having maintenance at really low cost" needs of my client. I did propose this concept with just free web hosting services, my additional scripts are taking care of bilingual option, installation of non supported font and many other design details on every site of this project. For this project, a mini course on the use of web hosting was carried out with the client's web admin.

Client reference

Used Tools:

Test space – **HHIT – H.Hasova**

OS: Windows 10

Soft: Home Office: VideoCalls 100% due to CO-VID19 outbreak, Webnode, Gimp – photoshop, Visual studio, JavaScript, Html, Css

Method:Agile, Kanban, partial - Scrum, GTD Method

Type of cooperation: **100% home office**

Released: **May 17. 2020**

Software development, Web designer

Lead Programmer, Webpage redactor (IT Area)

January 2020 – January 2020

Topics: JavaScript,Webgraphic designer / **Design / GTD**

Project: **Malmasáže** - Web presentation of massage therapies

Target:

Gaining deeper knowledge about programmers skills in a DB communication and web api generally.

Used Tools:

Test space – **automatic form filler** (= ready, in waiting for approval of the project sponsor)

OS: Windows 10

Soft: Webnode, Gimp – photoshop, Visual studio, JavaScript, Html

Method: GTD Method

Type of cooperation: **100% home office**

Released: **January 2020**

Software development-WebApi (single page api)

Lead Programmer, Lead Designer, Project Manager, Tester (IT Area)

September 2019 – until now

Topics: C#,PostgreSQL, JavaScript, Html, Css / **WebApi / GTD**

Project: WarehouseDB - webappi

Private company aplication (for company "Dantik") - api presentation is not and will be not available.

Target:

Gaining deeper knowledge about programmers skills in a DB comunication and web api field generally.

Used Tools:

OS: Windows 10
Soft: Aseprite, Gimp - photoshop, Visual studio 2019,
Method: GTD Method
Type of cooperation: 100% home office

Released: **March 30. 2020**

implementation of the program into the operation of the company: 30.3.2020

Software development

Lead Programmer, Lead Designer, Project Manager (IT Area)
